WebEOC Virtual Sessions Agenda
Wednesday, July 15

Time	Course & Description
12:30 - 1:00 ET	**Time with Juvare CEO Bob Watson** Kick off your afternoon with a Live update from our CEO on how Juvare is working to help organizations of all types prepare for critical incidents, collaborate with the Juvare Community, and respond to everything from tornadoes to COVID19, hurricanes, fires and more.
1:00 - 2:00 ET	**WebEOC 8.10 Release Overview and What is Next (IAP, Mobile, Juvare Exchange)** Learn what is in the latest release of WebEOC 8.10. The Juvare product team will walk you through all the new capabilities that include updates to the standard incident action plan, Juvare Exchange integration and our WebEOC mobile updates.
2:00 - 3:00 ET	**WebEOC Design Studio (DST)** It's here! Juvare is so excited to launch a state-of-the-art board building capability with a what you see is what you get 'low-code' designer. Come learn how you can take your boards to the next level with Juvare DST.
3:00 - 3:30 ET	**WebEOC Workplace** Returning to the workplace is complex. Learn how we've developed a specific board set to help organizations safely manage the process of returning to the workplace.
3:30 - 4:00 ET	**Inventory Management and Resource Requests in the time of COVID-19** All clients should attend this session which will be an overview of a national level resource request and response process leveraging WebEOC, EMSupply and Juvare Exchange. We will explore how on a local level you can collect resource requests and manage the response process up to the Strategic National Stockpile and down to an individual facility.
4:00 - 4:30 ET	**Juvare Exchange** Juvare Exchange updates are facilitating the communication and collaboration across public, private and healthcare sectors. The Juvare team has worked on making this easier for our WebEOC clients to collaborate together. There are lots of new features to review in Juvare Exchange.
4:30 ET	**Design Studio / Microsoft Teams Integration / Roadmap / Client Questions / Juvare Gurus** Grab your favorite beverage and stick around for Juvare overtime where we will discuss all things WebEOC and details about what we are working on. We will have WebEOC Gurus on hand to answer any pressing questions.
